

# Issuer Online

Companies deserve flexible and convenient access to their register of securityholders.

Issuer Online, a free service at [computershare.com](http://computershare.com), delivers registry reports and other key information to client companies, trusts and other issuers.

Fast and efficient, Issuer Online gives register access 24 hours a day, 7 days a week, from anywhere in the world.

The service offers the following downloadable information:

- Online enquiry facility providing full registration details, holding balances, dividend history and other relevant information from a particular holding
- Transaction history
- Stock Exchange price information with high, low and volume trade information for the past 5 trading days plus details of the market price of each class of the company's securities
- Graphs showing market prices over a requested period and up to three years previous
- Graphs showing volumes of securities traded over a specified period
- Top Holders (e.g. Top 10, 20, 50,100,200)
- Range of shares
- Substantial/significant movements
- Holders by domicile
- Holders by Class & Register Totals
- Annual Report Summary
- Returned Mail Summary
- Issued Share Capital Summary

Information is updated in real time after transactions are processed on the Computershare SCRIP registry system, and is protected by comprehensive security measures, including password protection and data encryption.

This handy service is offered free-of-charge.

For even deeper insights into your register, Computershare Analytics provides a suite of securityholder analysis and investor relations services.
